DEATHS IN NEW YORK .- The hot weather is beginning to swell the mortality reports in New York city, and to make sad havoc, especially among the children. The whole number of deaths from all diseases during the week ending Saturday foots up 636, an increase of 85 upon the returns for the week previous. This is a large increase certainly, but it is entirely among children, of whom 311 were under 10 years of age and 120 between the ages of one and two years. Total children 481. Another startling fact disclosed in these statistics is, 24 deaths from violent causes. Two deaths from cholera are reported and 134 from cholera infantum; consumption 24. Deaths in the almshouse and other public institutions, 68.

Monnovisu. -Elder Orson Hyde, until lately a Mormon prophet, has been enlightning the citizens of New York. A few days since he delivered a lecture to a small audience at the Academy of music, on Mormonism. He is reported to have given some curious particulars of the Mormon creed, mode of initiation and practice. He told some queer stories of Brigham Young's power among the Saints, and said that of his style of oratory Henry Ward Boecher was a wonderful counterpart. He expressed the opinion that the steps taken by the government, in sending sut soldiers and judges, will be of little utility in suppressing Mormonism, as the Mormons will gain more recruits than the soldiers, and the judges will have no causes brought before them to try.

GEN. WALKER'S LIQUOK BILL.—The City Council of Leavenworth, Ranner, has refused to pay Gov. Walker's liquor thit. It appears that when the Governor made his entry into the city, on the 26th of May, the Council tendered him the hospitalities of the city. On the same day he was requested to address the people, who had gathered in a large number in front of the Planter's Hotel. He refused, but, instead, had bottles of brandy and campagne to thevalue of \$210 distributed among the crowd; and the proprietors of the Hotel, called on the city for payment, which is refused, because it is an abuse of the hospitality tendered the Governor-would furnish a bad precedent-and be giving the influence and money of the city for the encouragement of intem-

Quite a serious row occurred Saturday evening in the neighborhood of Fulton and Nassau streets, New York, between some rival fire companies. Both parties drew up in lines, facing each other, and the pipes of the engines, the wrenches, and every available weapon, including stones, were soon in requisition. For about twenty minutes the fight was conducted with great vigor, the combatants on both sides soins down rapidly under the blows of their but for the activity of the police, much serious consequences might have ensued.

PATAL RAILROAD ACCIDENT .- A shocking no cldent occurred on the Greenville (S. C.) Railroad, last Wednesday evening. We learn from the Columbia papers that a freight train broke through the Saluda bridge, and a portion of the traia was precepitated into the river, causing the death of the two firemen, named Dobbins and Morrison. The engineer escaped. The bridge was considered the best of the old bridges on the road, and the Superintendent, who passed over it twenty minutes before the accident. gaw nothing wrong.

Loso Palmerston is sa d to be, just now the busiest man in the world. Having just emerged test with China; he has to put down revolt in India; has to grapple with disaffection in the Iona Islands; and the last news from Australia shows that country in the heat of a political crisis, which many eventuate in its declaring itself indepenent one of these days, and claiming rank among the nations of the earth as the

Field, a brother of David Dudley Field, of New York city, for Judge of the Supreme Court. The republican nomince for Governor is Edward Stanley, formerly of North Carolina, and for Judge, Nathaniel Bennett.

It is estimated that not less than 1,500 or 2,-000 additional visitors have been attracted to Montreal in consequence of the meeting of the Scientific association. Unfortunately the rain has been incessant, thus dampening the otherwise agreeable rounion of distinguished men in

A USEFUL HINT TO OUR LEGISLATORS .- The marriage laws of England require the contracting parties to sign their names in a book kept for the purpose. These marriage Registries are often of essential service in the Courts of Law aiding a court and jury in coming to a just decision in cases presented to them for adjudica-

Take, for instance, the case of Mrs. Cunning ham's marriage with Dr. Burdell, and the value of such a clause in the law becomes at once an parent. If Mrs. C. really married Dr. B., as stated, the testimony of Mr. Burdell's banker and others known to be familiar with his auto-graph, would have established the validity of the marriage beyond question. On the other hand, if Dr. Burdell was not the mon she married, this same Registry would have afforded evidence equally conclusive that the signature in its pages, of "Harvey Burdell," was a forgery.

BELL's Life states that the Americans bet \$50 .-000 on the American horses at Goodwood: that Mr. Ten Broeck., made "a book" of \$10,000; and that Tr. T. B. was so dissatisfied with Gilpatrick's riding that he discharged him next morning. Of the manner of riding Bell's Life

The Americans adopt altogether a different style of riding to that of our own jockies. The former sit down on their horse all the way, as if riding a trotting match, always have a "hard pull" on, and never shake or "roll" them at the tinish of a race, sonsequently as was the case on this occasion, ninety-nine spectators out of a hundred might naturally imagine from the absence of all movements of the arms that the riders were "robing."

ISAAH FAULKNER, of Cleveland, posted his wife, whereupon she advertises that she never his bed and board, for he never had any, and never supported her, because he was too lazy. She concludes: "I hereby give notice to all married and unmarried women to be on her guard gainst his coming around—he is rea-headed and dangerous—put him out! don't trust line on my account." Indeed so great was the applause, that the learned chairman, to check his surcharged feelings was compelled to take another glass, as did each of the excited members. But order being at length re-stored, the speaker was permitted to continue.

The speaker had scarcedy escapleted this isster sentence, ere every glass in the room was drained to the bottom, and the room echoing to the cries for more.

Order was again restored, and Mr. Snooks continued,—"I said, gentlemen, that the time for war had come, and I now propose to explain."—At this point, Mr. Soakem arose and standing as freet as possible, under the circumstanees, "begged leave to state that the eloquent chair man had in my opinion, done ample justice to the momentous question. Order being restored, and fresh supplies of "Lager" being introduced, the chairman once more took his stand! And here let us not forget to do justice to the accomplished and eloquent speaker, by informing our readers that our noble Snooks could drink Lager all night without any ill effects to his mental abilities; that is, though he might become very limber in the body, he was sound and erect in the head.
